

Jabra Halo Smart Red

How do I turn on message readout?

Prerequisites

- [Jabra Assist - Android](#)
- [Jabra Assist - iOS](#)

iOS

Go to **Message readout** settings and turn on **Message readout**. The feature only works when Jabra Assist is open, and you are connected to a Jabra device.

Android

Go to **Message readout settings** and turn on **Message readout**.

To hear new messages, you must give Jabra Assist access to notifications. From the **Notification access** screen, turn on **Message readout**.
