

Jabra Move Wireless Black

How do I reset my Jabra Move?

When you reset your Jabra Move, the list of devices that have been paired with it is cleared. Follow these steps to reset:

1. Turn on your Jabra Move.
2. Simultaneously press and hold (5 seconds) the **Multi-function** button and the **Volume up** button until 2 brief sound prompts are announced in the headset.

3. Your Jabra Move is now reset and is ready to pair.

Note: When your Jabra Move has been reset, you will need to re-pair it with your smartphone. Remember to delete the previous pairing before you re-pair.
