

Jabra Storm

How do I reset my Jabra Storm?

When you reset your Jabra Storm, the list of devices that have been paired with it is cleared. Follow these steps to reset:

1. Turn on your Jabra Storm by setting the **On/off** switch to the "on" position.
2. Simultaneously press and hold (5 seconds) the **Answer/end** button and the **Volume up** button.

3. Turn your Jabra Storm off and then on. It is now reset and ready to pair again. Follow the voice-guided instructions to pair.
4. Turn on Bluetooth on your mobile phone, and then select Jabra Storm. Enter "0000" (4 zeros) if you are asked for a pin code.

Note: When your Jabra Storm has been reset, you will need to re-pair it with your mobile phone. Remember to delete the previous pairing before you re-pair.
