# Jabra Supreme+ (Driver Edition)

How do I reset my Jabra Supreme?

When you reset your Jabra Supreme, the list of devices that have been paired with it is cleared. Follow these steps to reset:

1. Turn on your Jabra Supreme by flipping the boom arm to the "on" position.
2. Simultaneously press and hold (5 seconds) the **Answer/end** button and the **Volume up** button until the battery and Bluetooth lights flash.

3. Turn off your Jabra Supreme by flipping the boom arm to "off" position. Your Jabra Supreme is now reset. When you turn it on again, it will be ready to pair.

Note: When your Jabra Supreme has been reset, you will need to re-pair

it with your mobile phone. Remember to delete the previous pairing before you re-pair.
