

Jabra Link 360 - Bluetooth Adapter

How do I pair or re-pair a Jabra Bluetooth device with the Jabra Link Bluetooth adapter using Jabra Direct?

Prerequisites

- [Jabra Direct - latest version](#)

Jabra devices that include the Jabra Link Bluetooth adapter have been pre-paired out of the box.

To pair an additional Jabra device with the Jabra Link Bluetooth adapter, or to re-pair a Jabra device with the Jabra Link Bluetooth adapter, follow these steps.

1. Insert the Jabra Link Bluetooth adapter into a USB port on your computer.
2. Ensure the Jabra Bluetooth device is turned on and within range.
3. Put the Jabra Bluetooth device in pairing mode (as you would do when pairing it with a mobile device).
4. Open Jabra Direct and click **Pairing**.
5. In **Available Bluetooth devices**, click **Search**.
6. Select the device to pair with the Jabra Link Bluetooth adapter, and then click **Connect**.

Note

Ensure that the Jabra Link Bluetooth adapter is set as the default audio device for the speaker and microphone in the audio settings of your computer.
