#### What is *Bluetooth*<sup>®</sup> wireless technology?

*Bluetooth* wireless technology is a radio technology developed to deliver short-range wireless mobility. Bluetooth technology eliminates wires between devices, such as mobile phones and headsets, and enables communication between devices that are in close proximity to one another. *Bluetooth* facilitates fast, secure transmissions of both voice and data. More information is available at [www.bluetooth.com](http://www.bluetooth.com) or [www.bluetooth.org](http://www.bluetooth.org)

|  |   |
|--|---|
